

VIBRATION RANGE

DINGO

Electric portable vibrator

The DINGO is a single-phase electric portable vibrator with a tough outer casing that surrounds the motor body.

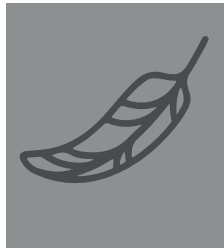

- A built-in air filter keeps pollutants out of the engine
- Splash-protected resistant housing
- Includes a carrying strap
- Vibration frequency: 12,000 v.p.m.
- Transmission with increased protection at the poker's head connection end
- 4 double-sealed oil-lubricated bearings

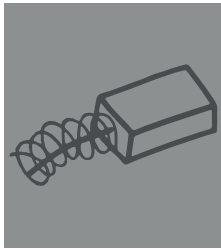

+ Robust and resistant

The casing of the DINGO is made from materials that offer high impact resistance.

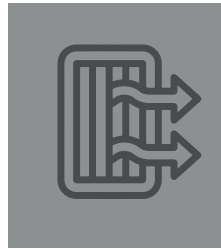

+ Lightness and manageability

The design of its 3 handles provides extra protection to the switch and motor and facilitates its use in vertical works.

+ Easy maintenance

Brushes feature an automated disconnect system and easy external interchangeability.

+ Air filter

Air filter located in the back part of the casing so that it protects the motor from external agents.

Technical Data DINGO

MODEL	Weight (kg)	Tension (V)	Frequency (Hz)	Dimensions (Large x High x High)	Power (W)
DINGO 230V	5.8	230 1 ~	50-60	345x244x229	2,300
DINGO 115V	5.8	115 1 ~	50-60	345x244x229	1,800

Technical Data AX Pokers

MODEL	Weight (kg)	Length (mm)	Diameter (mm)	Max. performance (m ³ /h)
AX 25	0.8	285	25	10
AX 32	1.7	366	32	14
AX 40	2.2	335	40	17
AX 48	3.2	335	48	28
AX 58	4.5	344	58	35

Technical Data TDX Transmissions

MODEL	Weight (kg)	Length (m)
TDX/TDXE 0.6	2.6	0.6
TDX/TDXE 1	3	1
TDX/TDXE 1.5	3.5	1.5
TDX/TDXE 2	4	2
TDX/TDXE 2.5	4.5	2.5
TDX/TDXE 3	5	3
TDX/TDXE 4	6	4
TDX/TDXE 5	7	5
TDX/TDXE 6	8	6

*For AX25 and AX32 pokers correspond the TDXE transmission models.
*For AX40, AX48 and AX58 pokers correspond the TDX transmission models.
