

SURFACING RANGE

LR TROWELS

Surfacing hand tools

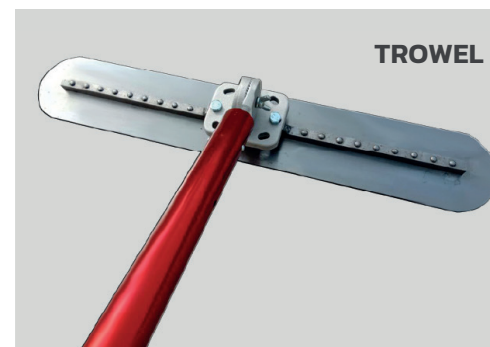

ENAR's range of LR trowels includes fixed and oscillating handles, concrete placers, surface finishing brushes... all of them available in different sizes and finishes.

ENAR'S manual trowel series offers a solution for every need thanks to its wide range of steel profiles, fixed & oscillating connections, and its interchangeable and extendable handles.

ENAR trowels are available in lengths of 0.6m, 0.75m, 0.9m and 1.2m with standard width and in 1.2m length for the special width model Blue Glider.

- Accessories: The aluminium placer (EAL 50) is a tool to easily spread and smooth poured concrete with aluminum handle. It has a length of 500mm
- The additional 1.8m-aluminium handle is used to lengthen the handle in both trowels and bull floats

Oscillating Trowels

MODEL	Weight (kg)	Profile width (mm)	Length (m)
LRO 600 A	4.1	127	0.6
LRO 750 A	4.3	127	0.75
LRO 900 A	4.5	127	0.9
LRO 1200 A	6	127	1.2

Fixed Trowels

MODEL	Weight (kg)	Profile width (mm)	Length (m)
LR 600 A	4.1	127	0.6
LR 750 A	4.3	127	0.75
LR 900 A	4.5	127	0.9
LR 1200 A	6	127	1.2

Blue Glider

MODEL	Weight (kg)	Profile width (mm)	Length (m)
BG 1200	7.4	315	1.2
