

VIBRATION RANGE

SPYDER PRO PISTOL

Pistol-type electronic integrated converter

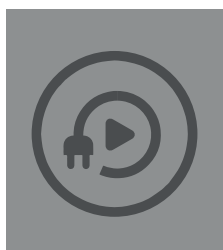

The pistol SPYDER vibrators offer the same benefits of the standard SPYDER range but with the added ergonomics and manageability advantage that the pistol handle offers.

- Vibration frequency 12,000 v.p.m.
- Optional rubber poker end
- Standard voltage/frequency input: 230v~50/60Hz (Optionally available in 110v~50/60Hz, upon request)
- Standard lengths: 0.8m transmission and 15m cable (other lengths available)
- Progressive start to avoid current peaks, preventing deterioration

Technical Data

MODEL	Total weight (kg)	Length (mm)	Diameter (mm)	Power of input (KW)	Performance (m3/h)
SPYDER PRO 230V-38	12	370	38	0.75	Up to 20
SPYDER PRO 230V-50	14	365	50	1.1	Up to 30
SPYDER PRO 230V-60	16	400	58	1.5	Up to 35
SPYDER PRO 230V-70	17	412	65	1.9	Up to 40

+ Plug & Play

Converter and poker integrated in a ready-to-use kit.

+ Ergonomic

The pistol handle brings a great manageability and ergonomics to the user, specifically designed for conditions which require a great user's mobility.

+ Light and compact

Lightweight and manageable, can be used in places of difficult access and handled by a single operator.

+ Safe and reliable

Hermetic protective housing that protects it against water and dust (IP67). Electrical protection against overloads, overvoltage, short circuits...
