

VIBRATION RANGE

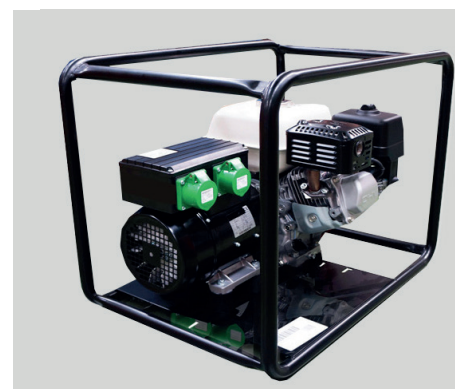

# AFG/AFGD

## High frequency generators

AFG/AFGD high-frequency generators with 42V safety voltage are the ideal solution when there is no electrical connection available.

- Electricity supply is not required
- AFGH 6000 model comes with a transport cart (Transport cart for model AFGH 6000)
- 42V safety voltage
- Generators with other engines available upon request

### Technical Data

MODEL	Weight (kg)	N° de plugs	Engine	Output	
				Power	Tension/Frequency
AFGH 2000	38	2	HONDA GX160 5.5 cv/Hp	1.6 KVA 24A	42V 3 ~ 200Hz
AFDY 2000	48	2	YANMAR L48AE 4.7 cv/Hp	1.6 KVA 24A	42V 3 ~ 200Hz
AFGH 6000	75	4	HONDA GX390 12cv/Hp	6KVA 83A	42V 3 ~ 200Hz

**+ Cordless**

The AFG-AFD series is perfect for work that requires no electricity and provides excellent mobility.

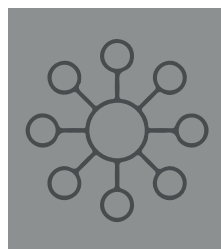

**+ Resistance**

Robust cage for transport and protection with shock absorbers built-in for increased robustness.

**+ Multiple outputs**

Produces enough power to operate with up to four 75mm poker heads.

**+ Wide range**

AFG-AFD converters are ready to meet all user requirements. Customers can choose between diesel and petrol engines.
