

SURFACING RANGE

MISTRAL

Light surfacing screed

The MISTRAL vibrating screed combines the robustness provided by its motor support, with the lightness and ease of transportation of its removable pole.

- Rounded edges on the profile
- High strength aluminium profile
- Flatness of the profile is strictly controlled
- The 200mm profile is designed to provide good buoyancy

Profiles

Length (m)	Weight (kg)
1.5	4.6
2	6.2
2.5	7.8
3	9.3
4	12.5

Technical Data Petrol Screed

MODEL	Engine	Power (CV)	Fuel	Fuel tank capacity (L)	Frequency (vib/min)	Centrifugal force (N)	Weight (Kg)
MISTRAL H	HONDA GX25 4t/st	1.1	Unleaded Petrol	0.55	Up to 9,000	1,500	10.7

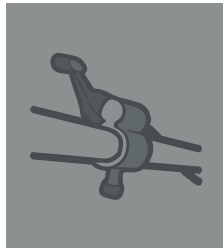

+ Durability

Due to the design of the support, the MISTRAL screed's motor is protected, making it more durable.

+ Manageability

The MISTRAL ENAR vibrating screed comes with a detachable pole for easy transportation.

+ Integrated throttle

The throttle set controller is integrated in the pole to adapt to every user and make the handling of the machine easier.

+ Engine support

It helps protect and reduce vibrations in an engine by 50%, thus extending its life.
